English Year 10

	AUTUMN 1					
English Literature. Macbeth, and Eduqas Poetry Anthology. tudents begin the year with a full, 'cold' read of the play 'Macbeth', and then study poems from the Eduqas English Literature anthology that are thematically linked to the Shakespeare text.			Prior Learning: Shakespearean language and the theory of tragedy. How character is presented/developed. Knowledge of poetic form and language techniques.	Author, nurse, teacher, presenter, politician, public speaker, editor, screen writer, lawyer, university lecturer, journalist, broadcaster		
	AUTUM	N 2				
English Literature Ma Students complete their study		English Literature: A Christmas Carol gin their study of the text, focusing on a 'cold read' and an in-depth study of Staves 1-3.	Prior Learning All the reading skills that students have built up over Key Stage Three will be put to great use here.	CHARACTER LINKS Moral character (using traits of compassion, courage, honesty, respect when		
	SPRING	1		exploring issues such as grief and isolation). Civic virtues		
English Literature: A Christmas Carol and Developing more detailed knowledge of the tex then study further anthology poems that are novella.	t and key moments in it. They Introducing	Prior Learning Use of quotations to support character development. Contest: 19 th century history and Dickens in particular.	(citizenship, community when considering poetic forms linked to different cultures and historic traditions). Intellectual virtues (critical			
	SPRING	2		thinking, reasoning,		
English Literature: An Inspector Calls. Anthology poems. Continuing study of the play, and its characters, themes and relationships. Study of poems from the anthology that are thematically linked to the text.		iterature: An Inspector Calls. Anthology poems. g study of the play, and its characters, themes and hips. Study of poems from the anthology that are thematically linked to the text	Prior Learning Study of drama in Year 8 and 9. Previous text study earlier in Year 10. Narrative writing from Year 9.	reflection). Performance virtues (confidence, resilience)		
	SUMME	R 1		KEY ASSESSMENT		
English Language Eduqas Com Students are introduced to the English Language exa the reading and writing sections, with opportunitie	mination and the requirements of Students a	nglish Language Eduqas Component One. e introduced to the English Language examination and the s of the reading and writing sections, with opportunities to practise the skills acquired.	Prior Learning Deep reading skills, covered in all text study in Y10 so far. Further practise in crafting writing for structure and accuracy.	DATES Students will complete classroom based-assessment tasks during each unit of		
	SUMME	R 2	_	study throughout Year 10, preparing them for GCSE		
English Literature Component One. Revisiting the texts studied earlier in the year to test knowledge recall and practise examination questions.			Prior Learning All the study in Year 10 so far, leading up to this end-of-year assessment period. Mock exams will take place in Summer Term 2.	mock examinations in English Language Paper One and English Literature Paper One in July

	SUMMER 2		W/C 22 January- 90/150 word
Top Making plans		Prior learning Infinitive understanding (Y7/Y8/Y9)	writing

Religious Studies/Ethics Year 10

AUTUMN 1

AUTUMN 1		CAREERS LINKS
Social Science: How do humans make moral decisions? Who decides when life begins? Students will recap moral decision making. They will develop an understanding of the concepts of the sanctity of life and the quality of life. They will consider the different arguments for and against abortion. Students will also discuss a variety of religious and worldviews regarding contraception and fertility treatments.	Prior Learning Students will build on the scale of developing well informed views to continue to make connections between religion and belief and ethical issues.	Jobs and careers relating to working with people such as in the Police, community work, the law, childcare, medical professions, aid work
AUTUMN 2		and journalism.
Social Science: How do humans make moral decisions? Who decides when life begins? Students will consider the different arguments for and against euthanasia.	Prior Learning Students will build on the ethical issues and concepts explored in the Y9 units.	CHARACTER LINKS
SPRING 1		Moral virtues such as
Philosophy: How far should science go in creating life? Students will consider ethical questions on the issues of designer babies, cloning and genetic engineering. Theology and Social Sciences: How are life and death celebrated in religion and other worldviews? Students will explore different religious views about life after death and the way it is celebrated.	Prior Learning Students will build on religious teachings and beliefs learned in KS3 and apply them to current ethical issues.	compassion, respect and humility are fostered when examining faiths and belief systems. Curiosity, reflection and critical thinking are
SPRING 2		encouraged (intellectual
Philosophy and Social Science: Religion, Peace and Conflict. Students will consider questions like: Why do wars happen, and can they be justified? What are religious attitudes to war? How does a belief in pacifism affect a person's attitude to war? How can victims of war be helped?	Prior Learning Students will continue to build on the scale of developing well informed views and continue to make connections between religion and belief and ethical issues. This unit also connects to learning in KS4 science.	virtues) when pursuing lines of enquiry into knowledge and truth. KEY ASSESSMENT DATES Students will be assessed
SUMMER 1		regularly through questioning
Philosophical and Social Sciences: Religion, Peace and Conflict. Students will consider questions like: why do wars happen, and can they be justified? Whatever ledges attitudes to war? How does a belief in pacifism affect a person's attitude toward? How can victims of war be helped?	Prior Learning Students will use key concepts and ideas explored in earlier ethical units and continue to connect to religious and world views.	in lessons and written feedback to more formal assessments.
SUMMER 2		
Philosophical, Social Sciences and Theology Students will explore their own worldview and consider questions that require deeper thinking and then respond in a creative way with a Spirited Arts project.	Prior Learning Students will use key concepts and ideas explored in earlier ethical units and continue to connect to religious and worldviews.	

iGen Year 10

AUTUMN 1

Addressing the following PSHCE areas through reading up to page 87 of The Art of Being Normal Students will explore a range of topics, including Future Planning; Goals and Achievements; Self-confidence and Body Image.

AUTUMN 2

Addressing the following PSHCE areas through reading pages 88-179 of The Art of Being Normal Students will explore topics, such as: conflict management; being a young parent; concerns around stress and loneliness; staying safe at parties, including issues around alcohol and intimate relationships. DDD Topics include (RSE) consent, contraception and STIs; realistic relationships and images expectations; CSE & grooming; (PSHCE) drug awareness & the law; mental health.

SPRING 1

Addressing the following PSHCE areas through reading pages 180-232 of The Art of Being Normal

Students will explore a range of topics, including media representation; independent living; binge drinking;

SPRING 2

Addressing the following PSHCE areas through reading pages 233-end of The Art of Being Normal Students will explore a range of topics, including managing anger; emotional literacy; avoiding the lure of gambling.

SUMMER 1

Addressing the following PSHCE areas through reading part 1 of Mind the Gap by Phil Earle Students will explore a range of topics, including grief; respectful relationships; accessing support in times of need; managing emotions to support positive mental wellbeing.

SUMMER 2

Addressing th following PSHCE areas through reading part 2 of Mind the Gap by Phil Earle Students will explore a range of topics, including staving safe and self-care.

Prior Learning:

The iGen curriculum assumes that students will have covered all aspects of KS3 PSHCE, RSE and Citizenship as well as understanding and embracing the school values.

Many of the KS4 topics are covered in core subjects and students revisit issues in greater depth, with a more sophisticated level of exploration.

The learning of this subject is tied to the year-group novel where students cover topics related (where possible) to the chapters, promoting empathy alongside understanding. Topics are selected from the government's curriculum guidelines to best fit with learning across the key stage.

CAREERS LINKS

Developing transferrable skills appropriate for all jobs.

CHARACTER LINKS

Empathy, personal values and role models.

KEY ASSESSMENT DATES

Assessment of understanding is ongoing. No formal assessments take place

Citizenship Year 10

AUTUMN 1

Life in Modern Britain Principles and values in British society. Identity and the media and free press.

AUTUMN 2

Life in Modern Britain The UK's role in key international organisations.

SPRING 1

Life in Modern Britain Making a difference in society.

SPRING 2

<u>Rights and Responsibilities</u> Laws in contemporary society and the rights and responsibilities within the legal system.

SUMMER 1

Rights and Responsibilities

How laws protect the citizen and deal with criminals. Universal human rights.

SUMMER 2

Rights and Responsibilities

Universal human rights. Bringing about change in the legal system. <u>Taking Citizenship Action</u> Students plan their own Citizenship Action.

Prior Learning

Learning builds on the curriculum in Identity, Religious Studies, Geography and History at KS3.

CAREERS LINKS

A vast array of career opportunities such as aid worker, teacher, police officer, museum curator youth and community worker

CHARACTER LINKS

Building knowledge and understanding to be an effective UK citizen.

KEY ASSESSMENT DATES

Formative and summative assessments during and at the end of each module

End of Year 10 mock exams (June).

Year 10 GCSE Drama

AUTUMN 1

CAREERS LINKS **Prior Learning Introduction to Theatre Practitioners** Teacher, Actor, Performer, Refresh their skills on Presenter, Writer, Playwright, All students will work through a variety of workshop style lessons developing a secure knowledge of specific theatre practitioners. theatrical knowledge. They These include the work of Berkoff, Stanislavski, Brecht. Students explore the work and techniques of these key practitioners to Public Service, will use their experience from develop their knowledge and understanding of theatre styles and practitioners. 	-	•	<u> </u>			

AUTUMN 1	CAREERS LINKS
ARCHITECTURE Mixed media artist Jon Measures acts as inspiration for the initial project of Y10 GCSE Art students who will analysis his multi layered architectural compositions of buildings before creating their own artworks using collage, drawing, mono printing, and mixed media.	Fine Artist, Photographers, Mixed Media Artist. Shoe Designers, Sculptors,
AUTUMN 2	Puppet Makers, Animators
ARCHITECTURE Prior Learning Students will use their own artworks from the first half-term to design a block print design. Use reduction printing to create layers of colour and textures within their prints. The printing process is followed by a series of workshop focused on mixed media techniques. Students will also have an opportunity to develop personal artworks using a taught technique of their own choice. Prior Learning Y9 - Nature	CHARACTER LINKS Respectful and honest
SPRING 1	feedback (moral virtues)
SELF-IMAGEPrior LearningInitially using photographer Rankin as inspiration, students will complete a photoshoot to capture expressive portraits of each other. These primary images will then be 'destroyed' using a wide variety of material and processes (including wire work, biro drawing, texture drawing and font design), aiming to increase students' ability to explore ideas and take creative risks. The abstracted figures of painter Christiane Spangsberg will act as an initial inspiration for exploring experimental drawings.Prior Learning Y9 - Teesha Moore Y10 - Architecture	given in peer assessment. Increased confidence and perseverance (performance virtues)
SPRING 2	Autonomy (intellectual virtues) when creating
SELF-IMAGEPrior LearningFollowing on from primary photos and drawings, students are introduced to the work of expressive painter Jean-Michel Basquiat. Informed by a short series of painting workshops, students will need to use their primary photos to create their own artwork to the figurative work of Basquiat. This also provide the opportunity to combine artistic influences, ideas, materials and processes explored within this project to create a highly personal and meaningful response to the theme 'Self Image'Prior Learning Y9 - Landscape painting Y10 - Architecture	independent photographic responses. KEY ASSESSMENT DATES
SUMMER 1	Summative assessment
SELF IMAGE Students will create a highly personal and meaningful response to the theme 'Self Image', using relevant images, materials and processes, to realise their own intentions. OUR WORLD Taking inspiration from their own research and primary studies, students will explore the theme 'Our World'. Students will need to demonstrate an ability to record their observations and refine their ideas.	takes place every 4 weeks. Coursework is constantly reviewed with verbal feedback. Formative teacher
SUMMER 2	assessment and guidance is ongoing
OUR WORLD Using the imagery from the previous half-term, students will need to work with an increased amount of independence, developing a personal concertina book inspired by the theme of 'Our World'. Students will make visual responses that take inspiration from their chosen artist(s) in suitable materials	Mock Exam June

The timeline of projects might change slightly to better reflect student progress.

Photography Year 10

	AUTUMN 1		CAREERS LINKS
SHAPE – SHAPE SAFARI Students learn basics of using a digital camera and use shapes wi of focus, tone, line and detail. Development of Photoshop skills u and white. Students study sculptor Fletcher Benton and use hi Students also study compositional rules of photograp	thin the school environment to develop skills in composition, use using cropping, quick selection, curves, hue and saturation, black s work to inspire their own paper sculptures and photo shoot.	Prior Learning Minimal knowledge of working of a camera from own personal use and editing packages online. Some Photoshop experience via ICT	Fine Artist, Artist, Photographers, Mixed Media Artist, Shoe Designers, Sculptors, Puppet Makers, Animators
SHAPE – VORTOGRAPHY Students complete the Shape project with a creative take on a kaleidoscope by taking photos through a triangular mirror, results are edited on Photoshop using learnt methods from the start of the course	TONE & LIGHT – EDWARD WESTON Students start a new project based on the use of tone and light. They research Edward Weston and develop black and white still life images of vegetables. They experiment with lighting effects and use of tone within Photoshop. SPRING 1	Prior Learning Developed knowledge of Photoshop from HT1. Students may have drawn from still life in Art classes at KS2	CHARACTER LINKS Respectful and honest feedback (moral virtues) given in peer assessment. Increased confidence and

		SPRING 2			working with materials, tools and processes they may not have	
Unit: 1.3 Types of Building Students will look at the features and components of residential and non- residential buildings, bridges and roads.	Students will look at materials that are used	gies and Materials the technologies and d to build, support and ern buildings	Unit: 1.7 Trade Professionals Students will learn about the different professionals involved in the planning, design building and maintaining of built structures.	Prior Learning Students will draw upon previous content from Year 10 along with elements of knowledge from the Year 9 construction project	experienced before. Intellectual virtues of judgement, curiosity and reasoning are vital when completing the practical elements of this qualification	
		SUMMER 1				
Brickwork / Plumbing Prior Learning Students will learn either the basic steps to plumb and test a radiator or how to mix mortar and lay bricks Some students may have prior experience in plumbing and brickwork from working at home.					KEY ASSESSMENT DATES Students will complete either in or end of topic assessment.	
	Year 10 mock exam - June					
<u>Revision</u> Students revisit prior knowledge and deve techniques and strategies to support the mock exams	op Students will look traditional and m	tructures and forms at the main types of nodern methods of ruction	Unit: 1.6 Sustainable construction Students will look at how the construction industry can meet the needs of current society without effecting future generations.	Prior Learning Students will draw upon previous content from Year 10 along with elements of knowledge from the Year 9 construction project		

Computing Year 10

AUTUMN 1

AUTUMN 1	CAREERS LINKS		
1.1 Systems Architecture – 1.2 Memory and Storage: Purpose of the CPU, the fetch-execute cycle, common CPU components and their function, ALU, CU, Cache, Registers, Von Neumann architecture, MAR, MDR, Program Counter, and Accumulator memory. How common characteristics of a CPU can affect the performance of a CPU. Topic 1.2 covers storage (sizes and devices). Data representation and conversions – binary, denary, hexadecimal, binary addition, and binary shifting. Discuss the relationship between the number of bits per character in a character set, and the number of characters which can be represented in ASCII or Unicode.	Prior Learning Students will have been introduced to the basics of how computers work and how files are saved as part of KS3 topics	Cyber security, ICT teacher, graphic designer, games developer, web programmer	
AUTUMN 2			
1.2 Memory and Storage – 1.3 Computer Network, Connections and Protocols: By the end of this topic, Students will have studied: Types of networks, LAN, WAN and factors that affect the performance of a network. The different roles of computers in a client-server and peer-to-peer server network; the hardware needed to connect stand-alone computers to a LAN including, wireless access points, routers, switches, NIC and transmission media. Students will develop their understanding of the internet as a worldwide collection of computer networks: DNS, Hosting, The Cloud, Web servers and clients. Star and Mesh network topologies. Modes of connection: Wired (Ethernet), Wireless (Wi-Fi, Bluetooth). Encryption. IP addressing and MAC addressing. Standards. Common protocols including TCP/IP, HTTP, HTTPS, FTP, POP, IMAP, SMTP and the concept of layers over a network.	Prior Learning During KS3 students have been introduced to storage and memory works, this unit will be developing Students understanding further	CHARACTER LINKS Across the academic year, students are encouraged to develop respect for their own	
SPRING 1		and peers' work (moral virtues), as well as confidence	
1.4 Network security Forms of attack – 1.5 System Software: By the end of this topic, Students will have studied: malware, social engineering (e.g., phishing, people as the 'weak point'), brute-force attacks, and denial of service attacks, data interception and theft, and the concept of SQL injection. You will explore common prevention methods: penetration testing, anti-malware software, firewalls, user access levels, passwords, encryption, and the need for physical security. For 1.5 Students will study purpose and functionality of operating systems, user interface, memory management and multitasking, encryption, and usability of computer systems.	Prior Learning During KS3 Students will have been introduced to the basics of computer networking, LAN/WAN and different network topologies	and perseverance to ascertain new skills (performance virtues)	
SPRING 2			
1.6 Ethical, legal, cultural and environmental & 2.1 Algorithms: By the end of this topic, Students will have studied the impact of digital technology on individuals and the impact of digital technology on wider society, including ethical issues, legal issues, cultural issues, environmental issues and privacy issues. Students will explore the legislation relevant to Computer Science, including: the Data Protection Act 2018, Computer Misuse Act 1990, Copyright Designs and Patents Act 1998 Software licences (i.e., open source and proprietary).	Prior Learning Students will have been introduced to cyber security in KS3 and an understanding of different malware and measures to protect a computer system.	KEY ASSESSMENT DATES Autumn 1: End of unit Test for 1.1	
SUMMER 1	Autumn 2: End of unit Test for 1.2		
2.1 Algorithms :Principles of computational thinking, including Abstraction, Decomposition and algorithmic thinking. Identify the inputs, processes, and outputs for a problem and create structure diagrams. Create, interpret, correct, and refine algorithms using pseudocode, flowcharts with reference to a high-level programming language such as python. Identify common programming errors including, syntax and logic errors. Apply rules of standard searching algorithms such as binary search, linear search to conduct searchers on a set of given data. Use of variables, constants, operators, inputs, outputs and assignments. Basic programming constructs sequence, selection and iteration.	Prior Learning During KS3, students will have had a basic understanding of system software and the role of an operating system.	Spring 1: End of unit Test for 1.3 Spring 2: End of unit Test for 1.5	
SUMMER 2	Summer 1: End of unit Test for 1.6		
2.1 Algorithms, Revision and Python Programming Continuation of topic 2.1 and revision and Python programming practice for Topic 1.	Prior Learning Students will have looked at the ethical and environmental issues surrounding computing at KS3	Summer 2: End of unit Test for 1.6 & computing component 1 mock exam

Enterprise & Marketing Year 10

AUTUMN 1		CAREERS LINKS	
Introduction Learners are introduced to the purpose of enterprise and the role of entrepreneurs. They consider risks and rewards of business activity. Unit R068 Topic Area 1: Market Research: Learners will understand the purpose of market research for businesses. They will understand a range of primary and secondary methods of market research and the merits of both quantitative and qualitative data	Prior Learning Learners will have some knowledge of business activity to draw on from their life's experience.	Self-employed; Business owner; Working within any business organisation; Accountancy and finance; Human resources	
AUTUMN 2			
Topic Area 1 (continued): Learners will select, carry out and review results of appropriate methods of market research for their coursework task. Topic Area 2: Market Segmentation: Learners will apply market segmentation to build a customer profile. Topic Area 3: Product Proposal: Learners will use their knowledge of the design mix and results of their market research to produce designs for a new product.	Prior Learning Learners will have some knowledge of business activity to draw on from their life's experience.		
SPRING 1		CHARACTER LINKS	
Topic Area 3 (continued): Learners will review their design proposals following feedback. Unit R067 Topic Area 3: Financial calculations: Learners will understand and calculate revenue; fixed, variable and total costs; and profit. Learners will be able to calculate the break-even level of output, and also understand the importance of cash.	Prior Learning Learners will have some knowledge of calculating profit. In year 9, learners are introduced to fixed and variable costs.	Learners consider the qualities required of successful entrepreneurs, including hard-work and resilience. They also consider	
SPRING 2		the ethical and environmental	
Topic Area 4: Marketing Mix (Price): Learners will understand different pricing strategies. Unit R068 Topic Area 4: Review whether a business proposal is financially viable. Learners will calculate costs, revenue, break-even and profit relating to their business proposal. They will also apply a pricing strategy and review the financial viability of the proposal.	Prior Learning Learners will apply knowledge from Unit R067	impact of business activity. Learners also develop a greater understanding of the world they live in.	
SUMMER 1		KEY ASSESSMENT	
Topic Area 5: Review the likely success of the business proposal: Identify risks and challenges when launching a new product and understand how risks and challenges can be minimised/overcome. Unit R067 Topic Area 4: Marketing Mix (Promotion): Learners will understand the relative advantages and disadvantages of different types of advertising medium. They will also consider the appropriateness of different sales promotion techniques.	Prior Learning Learners will have knowledge and experience of some methods of promotion.	DATES Summative assessment each half term.	
SUMMER 2		R068 coursework submission	
Unit R069 Topic Area 1: Develop a brand identity to target a specific customer profile: Learners will understand brand personality, brand identity and brand image; and the reasons that branding is used. They will understand branding methods and produce a competitor analysis. Topic Area 2: Create a promotional campaign for a brand and product: Learners will explain the objective of a promotional campaign and create a plan for a promotional campaign.	Prior Learning Learners will have some knowledge of established brands.	in May	

PE Year 10 - Girls
